

## Internet Links Added to Chiropractic Calendar

Editorial Staff

In the continuing effort to provide more information on our website (ChiroWeb.com), several sponsors are adding internet links to the "Chiropractic Calendar" section.

Currently, the Chiropractic Calendar contains links to Western States Chiropractic College and the Motion Palpation Institute. There are detailed descriptions of specific MPI seminars available. More links, including biographical information on seminar instructors, will be added in the near future. Users can visit the Chiropractic Calendar at [www.chiroweb.com/cgi-bin/calendar](http://www.chiroweb.com/cgi-bin/calendar) .
