

## Expanding Your Practice to Include Homeopathy

Frank King, DC

Feeling burned out and ineffective in relation to all the needless suffering in the world? Disillusioned with chiropractic being the answer to the world's health problems? Remember hearing that the call of chiropractic was to empty the hospitals, insane asylums, jails, and fill the churches?

I don't believe B.J. Palmer was wrong with this vision. I don't believe that the founding principles of chiropractic are wrong. I do believe that the chiropractic profession is not recognizing or correcting all the nerve interference within the body. Over the last 17 years, in a result-oriented practice, I have seen homeopathy bridge the gap. Homeopathy has enhanced the adjustment and made the difference between little or no results in difficult cases, to great results and restored health.

Homeopathy is an energetic form of natural medicine that corrects nerve interferences, absent nerve reflexes, and pathological nerve response patterns that the chiropractic adjustment alone does not correct. The appropriate homeopathic remedies will eliminate aberrant nerve reflexes and pathological nerve responses which cause recurrent subluxation complexes.

Not only does homeopathy correct nerve interferences, it empowers the doctor of chiropractic to reach the entire nervous system. What this means is that we can now better affect the whole person, and all of the maladies that affect us. Homeopathy's energetic approach reaches deep within the nervous system, correcting nerve interferences where the hands of chiropractic alone cannot reach. Homeopathy is the missing link that enables the chiropractor to truly affect the whole nervous system!

### Financial Rewards

Homeopathy means a multiple increase in business. Personally, I have been able to see and effectively help more patients in less time. The additional cash flow from broadening your scope of practice, increasing your patient volume and selling the homeopathic remedies is a wonderful adjunct. Better yet are the secondary financial benefits:

- Homeopathy is like an extension of you that the patient can take with them to apply throughout each day in between visits. The actual therapeutic benefits of homeopathy along with the inner comforts of the patient as they connect you with each dose they take.
- The dynamic broadening of your effective scope of practice multiplies the number of patients you can help and the multiple problems that each patient usually has. As you correct one set of problems, there are commonly other problems most patients don't even tell their chiropractors. This doesn't have to be the case anymore. Homeopathy empowers the chiropractor to correct conditions ranging from allergies to warts with incredible effectiveness!
- Obviously, the rule of multiples will exponentially increase when a homeopathic procedure is

properly implemented into your practice. Many of the conditions people are suffering with have no viable solution without the dynamic duo of chiropractic and homeopathy.

You can be the doctor people will seek out, travel long distances to see, and pay cash for your valuable services. Take it from someone who has experienced it first hand, it's a great position to be in.
