

Helping Your Patients Have the Best Vacation of Their Lives

Frank King, DC

The summer months are approaching and homeopathy can turn the summer slump into your busiest, record-breaking months of the year. While your patients are preparing for their summer vacations, you can offer them a service they will truly appreciate for the rest of their lives. The quality of health a person experiences during their vacation, makes a greater difference in a vacation than where they may take the vacation.

In my practice, I've developed what I call a "Vacation Evaluation Kit." With this kit, you can give your patients the best vacation of their lives. If you haven't yet implemented homeopathy in your chiropractic practice, now may be the time to introduce this powerful tool to your patients. By doing this, you truly can be a doctor of the entire nervous system.

Homeopathy and chiropractic provide the best services to ensure not only vibrant health, but will allow for the best vacations of your patients lives. The key is to ask the right questions and have the right tools to correct the problem. Health conditions that you treat your patients for every day can greatly affect the quality of their vacation. Take a look at the following examples:

CONDITION	AFFECT ON VACATION
Acne on face, back, etc.	Limits vacation options such as beaches, etc., due to self-consciousness about skin most. In fact, sun can be harmful for acne conditions.
Constipation/Diarrhea	Reduces fun time
Indigestion/Gas/Bloating	Reduces pleasure
Insect Bites/Stings	Reduces fun time
Jet Lag	Reduces actual vacation pleasure time due to needed rest due to time change
Motion Sickness	Limits travel options/amusement park rides, etc.
Muscle, Bone, Joint,	Reduces activity options
Arthritis/Sports Injuries/Overweight	Reduces vacation options due to being self-conscience about appearance
Phobias/Fears/Stress	Limits vacation pleasure and options
Sexual Dysfunctions	Obviously limits pleasure
Sinus/Allergies	Limits pleasure and trip options (changes in elevations/climates can cause upper respiratory allergies)

Most homeopathic companies will offer formulas for the above mentioned conditions and many more conditions as well. A well formulated homeopathic remedy can help not only alleviate these symptoms, but can provide healing from these conditions. The above information provides insights into how many ways you can help your patients not only to have the best vacation of their lives, but to live their life to the fullest! Being a proactive doctor who asks the right questions first will win

you the reputation of being the best! Concerning treatment of their future health care issues, your patients will think of you first. What a testimony to chiropractic, homeopathy and natural health. As chiropractors, we can help educate our patients to the power of living proactively instead of the "victim mentality" of reacting to life.

For further information and a sample "Vacation Evaluation Questionnaire," contact Dr. King at 1-800-543-3245, Monday through Friday 9 to 5 Eastern Standard Time.
