DC Runs for Congress in Georgia

Dr. Rosemary Kaszans, a 1979 Life graduate, has recently qualified to run for Congress as a democrat in Georgia's first Congressional district. She is an elected member of the Glynn County Democratic Executive Committee, the 1st vice president of the Glynn County chapter of the Georgia Federation of Democratic Women, and founder of an environmental activist group Glynn Environmental Coalition.

Although Dr. Kaszans is not an advocate of "big government," she says that she is strongly in favor of efficient federal programs. "There is a place in our lives for important government input," she stated. "I also firmly believe we can balance the federal budget, not on the aching backs of our elderly and on the growing spines of our children, but by cutting government waste, aggressively prosecuting fraud and cheating, and by showing wise prudence in defense spending."
