

WCA President under Investigation for Unprofessional Conduct

ARIZONA BOARD OF CHIROPRACTIC EXAMINERS ISSUES COMPLAINT

Editorial Staff

In their January 14, 1993 meeting, the Arizona Board of Chiropractic Examiners voted 4-1 to issue a complaint and a notice of hearing separately to Terry Rondberg, D.C., and Alan Immerman, D.C. According to the Board minutes:

"The Board reviewed the investigative records obtained from the Maricopa County Attorney's office on their investigation, and the subsequent civil settlements, of Dr. Immerman's and Dr. Rondberg's involvement in the campaign financing matter commonly referred to as AzSCAM.

"The Board discussed their concerns that none of the statements or interviews conducted in the investigation of this matter had been under oath. Members of the Board expressed belief that Dr. Immerman and Dr. Rondberg would not have agreed to the civil fines imposed if there had not been misconduct on their parts. Dr. Badge commented on the high national visibility of the two doctors, and the resulting need that the Board establish a record on the matter.

"Mrs. Lubin moved that Dr. Immerman and Dr. Rondberg be issued separate Complaints and Notices of Hearing; the issue being whether Dr. Immerman's and Dr. Rondberg's involvement constituted unprofessional conduct."
