

Forty State Associations Now Sponsor Chiropractic Centennial !!

Editorial Staff

The momentum is building for the Chiropractic Centennial. More chiropractic state associations are becoming sponsors, and more chiropractors are becoming involved in their states at the grassroots level.

The special programs and events that will soon be coordinated through the state associations will bring the benefits of our Centennial Celebration to you and your community.

There will be a meeting in Davenport beginning on September 18, 1993. All state associations are encouraged to send a representative, regardless if your state association is a Centennial Sponsor. This will be a time when you can learn how involvement in the Chiropractic Centennial can benefit you and enhance the image of chiropractic in your state.

Listed below are the state and national associations that are currently members of the Chiropractic Centennial Foundation. If your association is not a member, you need to make some phone calls, then call the Centennial office at (319) 326-9626 and tell them that your association will have a representative present on September 18th to see what all the excitement is about.
