

CCR Receives Research Donation

Editorial Staff

At the recent Marin County Chiropractic Society meeting, Moses Jacob, D.C., presented a \$500 check to Dr. Kurt Hegetschweiler for the Consortium for Chiropractic Research (CCR). The donation came from Diagnostic Imaging Services of California (DISC), a newly founded company that provides state-of-the-art MRI for the chiropractic patient.

DISC has committed itself towards assisting chiropractic research and plans to make future donations at regular intervals.
