

## Dynamic Chiropractic's New International Forum

Editorial Staff

We are proud to announce our new "International Forum." This will initially begin with four pages marked in red as you see on this page. The International Forum is a section only for those chiropractors and students in Europe, Australia, Asia, Africa, the Middle East, and Central and South America.

The International Forum has been established for two reasons:

In each area of the world, the chiropractic profession faces problems and concerns that are specific to that particular region. The International Forum will allow for the communication and discussion of those issues. Ultimately, the Forum will attempt to be a place where the concerns of chiropractors in these geographic areas can be expressed.

Secondly, there has been a continued increase in the cost of foreign postage. Currently, Dynamic Chiropractic is shipped by truck to Chicago Illinois, shipped by air to London, England, and mailed through the British post.

While this has helped to reduce the ever increasing cost of postage, it has only slowed the problem. At this point, the cost of mailing Dynamic Chiropractic to approximately 4,000 chiropractors and students in these seven areas of the world is greater than the cost of mailing over 57,000 issues in the United States.

Part of the International Forum will be utilized to provide news briefs of articles that were featured in the North American issues.

If you would like to continue receiving all issues of Dynamic Chiropractic, we invite you to subscribe to the other fourteen issues. This supplemental subscription is currently priced at \$58 USD per year. If a sufficient amount of subscriptions are purchased, the cost will decrease and this decrease will be passed on to you.

You may pay for your subscription with Visa, Mastercard, an international money order, or wire. Please use the form below.
