

State Representatives Attend San Diego County Chiropractic Society's Annual Chiropractic Friendship Party

Editorial Staff

On August 4, the San Diego County Chiropractic Society held its annual Chiropractic Friendship Party at Lawrence's Restaurant in La Jolla, California. The event was a tremendous success, drawing over 300 DCs, staff, friends, medical practitioners, and legislators from all over San Diego County.

Perhaps the most significant aspect of this year's party was the attendance of our state representatives. Three members of the Assembly, Carol Bentley (77th), Tricia Hunter (76th), and Robert Frazee (75th) were there, along with Senators Wadie Deddeh (40th) and Bill Craven (38th). Other representatives phoned their regrets prior to the event.

The grand showing of legislators speaks very highly of San Diego's political grass roots efforts to know and interact with their elected official as well as for the fine job that the California Chiropractic Association (CCA) is doing in Sacramento and throughout the state to further educate legislators about chiropractic.
