

CCSP Programme Comes to France

Karin F. Moscatelli, DC

The end of 1990 will see the Institut Francais de Chiropractie (IFC) hosting the 100-hour Sports Injury Certification program in collaboration with Logan and New York Chiropractic Colleges.

A detailed course syllabus has been sent to every member of the European Chiropractor's Union and attendance is expected to be high. So far even a courageous colleague from Australia is enrolling in the program

The sessions will be presented as follows:

Session I: December 6-9, 1990

Dr. Wickes

- Skull Injuries
- On the Field Evaluation of Athletic Injuries
- Emergency Procedures
- X-ray Evaluation of Sports Injuries

Dr. Nash

- Lower Extremity: Lower Leg, Foot, Ankle, and Toes

Session II: January 10-13, 1991

Dr. Kramer

- Exercise Physiology
- Rehabilitation
- Taping and Bracing

Dr. Aspergren

- Injuries to the Thoracic and Lumbar Spines
- Injuries to the Thorax and Abdomen

Session III: February 14-17, 1991

Dr. Skogsberg

- Injuries to the Hip, Pelvis, Thigh, and Knee

Dr. Pressman

- Nutrition and the Athlete
- Special Considerations
- Environment
- Injuries to the Cervical Spine

Session IV: March 14-17, 1991

Dr. Karg

- Upper Extremity: Shoulder, Elbow, Arm, Wrist, Hand, and Fingers

Dr. Santiago

- Biomechanics
- Sports Psychology
- Concepts of a Sports Physician
- Course Review
- Examination

The illustrious, aforementioned faculty will discuss in detail a review of the regional anatomy.

Diagnostic Evaluation Procedures; Laboratory Procedures (when required); Radiological Examinations; Diagnosis, Treatment, and Prognosis of Each Injury; Rehabilitative Exercises; Sequela of Injury; and Prevention of Injuries.

The IFC hereby hopes to bring European Chiropractic into the mainstream of world events.
