

DON'T MISS AN ISSUE!

Editorial Staff

Knowing that many of you will not want to miss the North American issue of Dynamic Chiropractic, we have instituted a new supplemental subscription service for doctors who want to receive both the North American and International copies of "DC" without interruption.

All doctors of chiropractic, chiropractic students and suppliers to the chiropractic profession living outside of North America, will continue to receive the International issue of "DC" monthly.

If you wish to subscribe to the North American issue to insure that you do not miss a special column or to stay current on all issues within North America, MPI will mail the North American issue to you via United States Postal Service Printed Matter/Air Mail for \$58 USD per year. The \$58 covers our postage cost only for the 14 North American issues which members of the chiropractic profession will not receive outside of Canada, Mexico and the United States.
