

## What Are My Choices?

Editorial Staff

You've made the decision to become a doctor of chiropractic; invested money in your education, the perfect practice location, staffing, etc. Now what? Where can you go to find information on products, education and other goods and services to help grow your practice?

"What Are My Choices?" is a monthly column that gives you the information you need, straight from the expert - the companies themselves. This first column focuses on companies that provide clinical seminars, as clinical skills are the core of a successful chiropractic practice. As most DCs will want to plan which seminars will be attending in 2004, now is an excellent time to consider the wide range of choices:

**Academy of Lymphatic Studies:** The Academy of Lymphatic Studies has offered certification classes in Manual Lymph Drainage (Vodder Technique) and Complete Decongestive Therapy in the U.S. since 1994.

Courses include: anatomy, physiology and pathology of the lymphatic system; basic and advanced techniques of Manual Lymph Drainage; billing and management issues; and much more. We offer complete 135-hour courses (13 days) that meet requirements set by the Lymphology Association of North America (LANA), and 31-hour lymphedema management seminars (4 days).
