

In Remembrance: Dr. Karl W. Parker

Editorial Staff

Dr. W. Karl Parker passed away on Christmas night at the age of 68 following an 18-month battle with cancer. He died peacefully, surrounded by family.

A 1969 graduate of [Texas Chiropractic College](#), Parker served as executive vice president of the Parker Chiropractic Resource Foundation, conducting seminars with his father Dr. Jim Parker, including the 300th Parker Seminar (1989), which boasted a record 8,300 attendees. After his father's death, Karl began Karl Parker Seminars, continuing his father's legacy of teaching DCs how to more effectively run their practices.

He is survived by a wife, four children and six grandchildren, among others.
