Rio de Janeiro, Brazil will play host to the World Federation of Chiropractic's 11th Biennial Congress next April. The congress, with a theme of "Redefining Chiropractic Around the World," will be held April 6-9, 2011 at the Intercontinental Rio Hotel. The event will feature some of the leading authorities on chiropractic and spine care, including Drs. Scott Haldeman (speaking on nonsurgical management of the cervical spine), Donald Murphy (chiropractic management of cervical radiculopathy), John Downes (cervical adjusting), Mike Leahy (active release), Arlan Fuhr (instrument adjusting), and Michael Schneider (low-tech rehabilitation protocols). Also speaking at the four-day event will be orthopedic surgeon Tarcisio de Barros, MD, PhD, from the University of Sao Paulo, lecturing on clinical indications for surgical management.
