

Dynamic Chiropractic

CHIROPRACTIC (GENERAL)

## ***DC* Indexed on Apple News**

Editorial Staff

*Dynamic Chiropractic* is one of several MPA Media publications now indexed on [Apple News](#), a preloaded app on all iPhones and iPads equipped with the iOS 9 operating system. By adding *Dynamic Chiropractic* to your "favorites" folder on Apple News, you not only get access to all the latest news and information reported in *DC*; you also help articles that support the chiropractic profession achieve higher rankings than those that don't.

Apple News "collects all the stories you want to read, from top news sources, based on topics you're most interested in - so you no longer need to move from app to app to stay informed. ... The more you read, the better News gets at understanding your interests, refining the selection of stories delivered to your screen so they are relevant to you."

As of press time, *Dynamic Chiropractic* and *Massage Today* are both available on Apple News; *DC*'s sister publication, *DC Practice Insights*, and *Acupuncture Today* will join them soon.

*Note:* While Apple News is the latest way to help *you* access your chiropractic news and information, don't forget about *To Your Health* when it comes to *educating patients* on the benefits of chiropractic, health and wellness. Encourage patients to bookmark the website and sign them up for the *TYH* biweekly e-newsletter (which you can personalize with your practice information and send directly to them). For more information, contact Nichole Prophet, Web Services Coordinator, at [nprophet@mpamedia.com](mailto:nprophet@mpamedia.com).
