

STOP Unwanted Faxes!

Editorial Staff

We have received several calls from doctors of chiropractic asking if we were ones responsible for the selling of their fax numbers to advertisers. *Dynamic Chiropractic* does not rent, sell or share phone numbers, fax numbers or e-mail addresses from our chiropractic database. We encourage those who are getting unwanted faxes to contact the vendor and request that they notify the list broker to remove them from their fax list. A list broker is an organization that specializes in renting mailing lists.

You can contact the list brokers directly and have them remove your name from their list. Many list brokers have websites, such as Access Publishing (800-458-0990) and Edith Roman (800-223-2194).
